

Traffic Garden Volunteers

It's always helpful to have a list of
roles and duties available for a volunteer installation :

- **Project Manager:** The go-to leader who helps keep things running smoothly! They guide the team, give instructions, troubleshoot, and keep everything on track.
- **Photographer:** Capture the magic! Take group photos at the start and end, snap before-and-after shots of the site, action photos of the installation, and fun close-ups of signs.
- **Filming:** Set up and keep an eye on stop-motion filming to document the transformation. (May need extra battery packs)
- **Site set up & prep:** Help get the area ready by sweeping, picking up branches and trash, clearing weeds, and laying out materials, supplies, and equipment.
- **Volunteer Sign-in Table:** Welcome volunteers, sign them in, and point them in the right direction. Keep snacks & water handy!
- **Crew leaders:** Guide small teams, make sure everyone knows their tasks, and keep things moving efficiently.
- **Measuring & chalking crew:** Mark out the key spots! Measure street widths and lengths, lay down chalk guidelines, and ensure everything is lined up properly.

Make sure to
thank all
volunteers!

Make sure to
print copies
of the day's
agenda

Lots More Volunteer Jobs

Take lots of
photos of
volunteers at
work

Be sure to print plenty of copies of the layout with dimensions so everyone has a clear guide for working!

- **Line installation crew:** Add the key lines and smooth corner curves to bring the layout to life.
- **Centerline crew:** Mark and paint the centerline, making sure to include any bends.
- **Roundabout crew:** Create the roundabout, paint approach lines, and complete the center circle.
- **Crosswalk installation crew:** Paint or tape the crosswalks
- **Pavement marking crew:** Stencil important features like stopbars, sharks teeth, 'stop' and 'yield', & arrows.
- **Chalk mark remover:** Scrub off any visible chalk measuring spots after installation is complete.
- **Tidying & organizing crew:** Gather tools and materials and return them to the central area as work proceeds.
- **Elementary schooler roles:** Add decorative features, add more information to signs, hold down tapes, and stencil arrows.
- **Site cleaners:** pick up trash, and sweep debris after installation is complete
